

This was modified from Abby Lewis for her Advanced R course at VT in fall 2023. See 05b doc in this GitHub repo:

https://github.com/abbylewis/Advanced_R/tree/master/class_exercises

- Link to GitHub repo for project
 -
- Name of script to review. If you only want comments on a subset of this script, indicate line numbers here
 -
- Summary of the overall project
 -
- What hypotheses are you testing
 -
- If you are asking for feedback on a specific analysis step, brief description of how this step fits into the overarching project
 -
- Stage of the project (e.g., initial data analysis, figure generation, near-submission)
 -
- Any other comments about what would be helpful from a peer review?
 -
